Maxtor®

PERSONAL STORAGE
5000LE

80 GB

Perfect for home or office
Exclusive Maxtor OneTouch

Room to Organize

Ideal for home or office, the Maxtor external hard drive quickly adds storage and organizational space through your computer's USB port. Use it as your digital photo album or jukebox or just to organize and store your files. At up to 40 times faster than USB 1.1, the USB 2.0 interface gives you the ability to search and access files quicker than before and is backward compatible with USB 1.1.

The Best Ideas Need a Maxtor OneTouch Drive

Easy—Just push the button to make a backup copy of your files.

Fast—Back up files faster than floppy, CD or removable cartridge systems.

Convenient—Make backup copies of your files, while you work, with a simple push of a button.

Flexible—Use the Maxtor OneTouch button or run automated, unattended backups with Dantz® Retrospect® Express.

Quick and Easy Installation

① Install the software   **②** Plug in the drive   **③** Push the button and follow the on-screen directions

Stand upright to save space

Perfect for Home or Office

Each 20GB of storage can store up to: 20 hours of compressed digital video, or 5,000 four-minute MP3 tunes, or 2,000 high-resolution compressed digital photos, or 50 video games.

Maxtor OneTouch

With the Maxtor OneTouch drive, you can easily make backup copies of your files on your schedule—not the network's. Ideal for the laptop user on the go.

Convenient

Virtually all computers have a USB port—making this one of the easiest ways to add storage to almost any system. By saving your files on a hard drive, you can access and update them faster and easier than any other storage method.

Kit Includes
