WE'RE HERE TO HELP

Technical Support will answer technical and troubleshooting questions regarding your Seagate hard drive during normal call center business hours. Before calling, note your system configuration and model number. These numbers can be used to get help from Seagate Support, register your drive, and look up information on the Seagate web site. Please visit www.seagate.com to obtain the latest comprehensive support information, such as:

KNOWLEDGE BASE
Troubleshooting information, FAQs, and technical documentation.

SOFTWARE DOWNLOADS
Installation software, utilities, and diagnostics.
Visit: www.seagate.com/ww/en-us/support/downloads

PRODUCT INDEX
Current and legacy Seagate products.

WARRANTY SERVICES
Product returns (RMA), warranty status, and warranty information.

PRODUCT SUPPORT
Installation assistance, product specifications, and user manuals.

FCC DECLARATION OF CONFORMANCE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CLASS B

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in residential installations. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the Dealer or an experienced radio/TV technician for help.

CAUTION: Any changes or modifications made to this equipment may void the user's authority to operate the equipment.

All other trademarks or registered trademarks are the property of their respective owners. When referring to hard drive capacity, one gigabyte or GB, equals one billion bytes and one terabyte, or TB, equals one thousand billion bytes when referring to hard drive capacity. In addition, some of the listed capacity is used for formatting and other functions, and thus will not be available for data storage. Quantities shown are approximate for various applications and for diagnostic purposes. Actual quantities will vary based on various factors including file size, file format, features, and application software. Seagate reserves the right to change, without notice, product offerings or specifications.
