

BlackArmor™

Always encrypted
Government-grade*
Secure portable storage

Protected by Seagate Secure™ hardware-based encryption technology delivering:

- Superior data protection in the event of loss or theft
- Government certification as the strongest data security available for an external storage device*

USB 2.0

Seagate Secure™ hardware-based full-disc encryption technology

The BlackArmor portable hard drive is the always encrypted, government-grade, secure portable storage solution designed for carrying your sensitive business and personal data with you. Featuring hardware-based full-disc encryption technology, it not only prohibits access to your data without the password, but eliminates tedious manual security procedures that are required in other technologies. When its USB cable is removed from the computer, the drive automatically locks. Not even a professional data recovery service can access or restore your data without the correct password. Plus, should you choose, permanent deletion of the encryption key allows for secure repurposing of the drive. Easy automated backup software, multiple computer sync, Windows compatibility, and a 5-year limited warranty are included.

Features and Benefits

- Hardware-based full-disc encryption technology
- Invalid password prohibits access to your data
- Removal of the USB cable from your computer auto locks the drive
- No tedious manual security procedures found in software-based encryption technology
- Hint feature offers a reminder in the event of a forgotten password
- Permanently delete encryption key for secure redeployment
- Pre-loaded software makes installation quick and easy
- Automated backup scheduling
- Sync to multiple computers on the same operating system
- USB 2.0 interface powers your drive and ensures fast data transfer
- 5-year limited warranty

*Government-grade AES encryption certified by the National Institute of Standards and Technology (NIST).

Maxtor®

BlackArmor™

Always encrypted
Government-grade*
Secure portable storage

Ideal for When You Need To

- Securely carry your sensitive data
- Quickly and easily back up and store your data
- Transport your data in a compact, lightweight device
- Securely redeploy your portable hard drive

PC Requirements

- Pentium III, 500Mhz equivalent processor or higher
- Windows Vista Home Basic, Home Premium, Ultimate, or Business or Windows XP Home, Professional, or Media Center Edition**
- 256MB RAM or more as required by operating system
- Internet connection for software updates
- 1 available USB port
 - Some older computers limit bus power and require a USB Y-cable for additional power. Y-cable sold separately at MaxStore.com.

Product Dimensions

5.17"H x 3.32"W x 0.67"L Weight: 7.20oz (204.12g)
131.2mm x 84.2mm x 16.9mm USB Cable: 0.80oz (22.68g)

Performance Specs

USB 2.0 480Mb/sec
Spindle speed 5400 RPM

Retail Packaging Specs

Box dimensions: 7.75"H x 5.63"W x 2.00"L (197mm x 143mm x 51mm)
Box weight: 0.85 lbs (385.55g)
Master carton dimensions: 15.95"H x 6.45"W x 6.50"L (405mm x 164mm x 165mm)
Master carton weight: 5.6 lbs (2540.10g)
Master carton quantity: 6
Master carton per pallet: 108
Pallet dimensions: 48.00"H x 40.00"W x 44.00"L (1,219mm x 1,016mm x 1,117mm)
Pallet weight: 657.65 lbs or 298.31 kg
Pallet layers: 6

Inside the Box

- BlackArmor external hard drive with pre-loaded security and backup software
- Quick Start guide
- USB 2.0 cable
- Protective slip case
- 5-year limited warranty
