LaCie network space 2

DESIGN BY NEIL POULTON

Home Network Storage

iTUNES® SERVER · **TORRENT DOWNLOAD** · **MEDIA STREAMING** · **UP TO 65 MB/s SPEED*** **ETHERNET SPEED** · **BACKUP**

Home Storage

With the LaCie Network Space 2, you're not simply storing files from your computer, you're storing files from all over your home. Imagine all of the data spread across your home computers now stored safely in one place. Connect the Network Space 2 through the Ethernet port to a computer or to a router, and share and store all of your media files from anywhere in your house, with the read and write speeds that you need. You can even back up multiple computers to ensure that your files are safe.

Home Entertainment

It's easy to access the LaCie Network Space 2 from any computer connected on the local network or any networked equipment that's UPnP™/DLNA® certified (like your PlayStation®3 or Xbox®). At home, networked computers can access the iTunes library or stored photos and everyone can stream music or videos to a networked UPnP AV-certified player or adapter.

Easy To Use

The included LaCie Network Assistant allows you to quickly start using your product after completing a few short steps. This helps the Network Space 2 to be user-friendly and incredibly easy to use—just like a classic LaCie hard disk. The Network Space 2 even comes with a customizable dashboard for advanced administration. You can even access your torrent downloads, or automatically import pictures when your computer is switched off!

Designed for Your Home

Designed exclusively for LaCie by Neil Poulton, the compact Network Space 2 has a fashionable, mirror-polished black finish with a unique distinguishing feature—a cool, blue LED strip on its underside that creates an ambient glow. The Network Space 2 is fanless and quiet, helping it consume significantly less power than competing hard drives, helping it to be more environmentally friendly.

1TB* = 1400 movies or 300,000 songs or 300,000 photos**

- Easy to use
- Centralize, share, and back up your files
- Access and download files, even with your computer turned off
- Create accounts for everyone in your household***

Control Your Network Space 2 with LaCie's Dashboard

Customizable Widgets

With LaCie's user-friendly dashboard, configuring and administrating your Network Space 2 is easy. You can access network and drive information, back up and copy files, manage user accounts, download torrents, or monitor your drive's capacity.

The Network Space 2 has a built-in power management widget, which lets you control both the light on your drive, as well as your drive's Eco Mode, which saves you money and helps the environment.
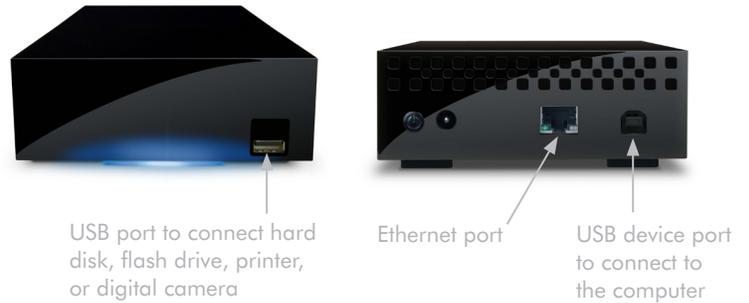

- User-friendly
- Everything you need in one interface
- Personalize the widget-based interface
- Accessible from anywhere
