SuperSpeed USB 3.0

The d2 USB 3.0 gives you SuperSpeed performance. Featuring 7200 rpm drives, the d2 USB 3.0 reaches up to 156MB/s, making it ideal for creative professionals looking for high transfer speeds. With an advanced backup solution for Mac® and PC, it is also perfect for any workstation setup and it's compatible with USB 2.0. It's even USB 3.0-compatible on Mac computers, thanks to LaCie's USB 3.0 driver for Mac OS.

Clever, Advanced Design

The d2 USB 3.0 is designed to integrate into any professional work environment. Sturdy and compact, it is ideal for intensive professional use. The unique and ultra-quiet, fanless aluminum heat sink design gives you 60% more surface area for heat dissipation for high reliability. The LaCie d2 USB 3.0 is versatile and can stand upright, be stacked horizontally with other drives or rackmounted to save desktop space.

Eco Management

Developed with the environment in mind, the LaCie d2 USB 3.0 helps you reduce power consumption by switching to its eco mode after 30 minutes of inactivity. For better energy efficiency, it will also automatically shut down when unplugged from the computer. On top of that, it's recyclable and ROHS-compliant.

*Burst transfer rates vary from one computer to another and may vary slightly from one drive to another. Average speed is usually lower, depending on host configuration.

**1TB (Terabyte) = 1000GB. 1GB = 1,000,000,000 bytes. Total accessible capacity varies depending upon operating environment (typically 5-10% less).

***Calculations are based on approximately 13GB/hour of DV video, 2.85MB/MP3 song, and 1MB/JPEG photo.
